

Reasons to go

Here at Familjen Helsingborg everyone is hard at work. Heating up the sauna for your winter dip, tending the rhododendron bushes in preparation for Sweden's most stunning floral display, preparing cheeses, sausages and other delicacies to be served throughout the region, sprucing up the greens on our 31 golf courses, laying markers along the forest and ravine trails and setting out the seating at the beachside cafés. All year long and round the clock we're here ready and waiting to welcome you to our home. There are many wonderful experiences to choose from in our home and the following are the ones that we would like to recommend.

TYCHO BRAHE MEMORIES, VEN

Tycho Brahe museum is located on the island of Ven, on the spot where Tycho Brahe in the 1500s built one of the foremost scientific institutions. The museum area is also a ideal playground of history, the underground observatory Stjärneborg, a reconstructed Renaissance garden and outdoor exhibitions.
